

# The Stars Speak, Chapter 3

*Angela Riley*

Questions to consider, discuss or journal.

What visual aids have you experienced that remind you of God's splendour and handiwork?

The Sign of Taurus:

We see vivid imagery of the return of Jesus. What signs in your own life strengthen your hope in the return of the Messiah?

The Sign of Gemini:

It is suggested that the Sign of the Gemini represents the two missions of Christ, symbolising that Jesus came in peace the first time, riding on a donkey, and will come as a mighty warrior the second time. Which mission of Christ resonates more with you? How does that affect your faith?

The Sign of Cancer:

We see imagery of sheepfolds and sheltering, that the "holding on" is about protection. Do you feel protected by our Lord?

The Sign of Leo:

Pointing to the return of Christ in glory to save the redeemed. He treads the enemy under foot, gathers his chosen to a place of safety whilst he unleashes six thousand years of divine wrath on the world and then rules in triumph. Do you feel confident in the return of Christ?

How has his series changed the way you look at the stars and notice God's creation?

*The heavens proclaim the glory of God. The skies display his craftsmanship. Day after day they continue to speak; night after night they make him known. They speak without a sound or word; their voice is never heard. Yet their message has gone through the earth, and their words to all the world (Ps 19:1-4)*
